

Multiplication practice 3rd grade worksheet

Continue

Our grade 3 multiplication worksheets start with the meaning of multiplication and follow up with lots of multiplication practice and the multiplication tables; exercises also include multiplying by whole tens and whole hundreds and some column form multiplication. Missing factor questions are also included. Find all of our multiplication worksheets, from basic multiplication facts to multiplying multi-digit whole numbers in columns. Math worksheets and visual curriculum Copyright © 2021 K5 Learning Welcome to the Math Salamanders 3rd Grade Multiplication Drill Sheets. On this page you will find our individual times tables sheets for the 6, 7, 8 and 9 times tables. We also have combined sheets for the 6 through 9 times tables. Here you will find a selection of Third Grade Multiplication sheets designed to help your child improve their multiplication knowledge. The sheets are graded so that the easier ones are at the top. Using these sheets will help your child to learn their multiplication facts for the 6, 7, 8 and 9 Times Tables. Want to test yourself to see how well you have understood this skill? Try our NEW quick quiz at the bottom of this page. Take a look at some more of our worksheets similar to these. Here you will find a selection of Multiplication Flashcards designed to help your child learn their multiplication facts. Using flashcards is a great way to learn your multiplication facts. They can be taken on a journey, played with in a game, or used in a spare five minutes daily until your child knows their Multiplication facts off by heart. Using these flashcards will help your child to: Learn their multiplication facts for the Multiplication tables. Here you will find a range of Free Printable 3rd Grade Multiplication Worksheets. The following worksheets involve using the 3rd Grade Math skills of multiplying, and solving multiplication problems. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Third Grade Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Using our random worksheet generator, you can: Choose the tables you want to test; Choose how big you want the numbers to go - up to 5 times, 10 times or bigger! Choose how many questions per page. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Our quizzes have been created using Google Forms. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. This will take you to a new webpage where your results will be shown. You can print a copy of your results from this page, either as a pdf or as a paper copy. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. We do not collect any personal data from our quizzes, except in the 'First Name' and 'Group/Class' fields which are both optional and only used for teachers to identify students within their educational setting. We also collect the results from the quizzes which we use to help us to develop our resources and give us insight into future resources to create. For more information on the information we collect, please take a look at our Privacy Policy We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Here is a graphic preview for all of the multiplication worksheets. You can select different variables to customize these multiplication worksheets for your needs. The multiplication worksheets are randomly created and will never repeat so you have an endless supply of quality multiplication worksheets to use in the classroom or at home. Our multiplication worksheets are free to download, easy to use, and very flexible. These multiplication worksheets are a great resource for children in Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Click here for a Detailed Description of all the Multiplication Worksheets. Click the image to be taken to that Multiplication Worksheet. Multiplication Times Table Worksheets for Lesson Plans These multiplication times table worksheets are colorful and a great resource for teaching kids their multiplication times tables. A complete set of free printable multiplication times tables for 1 to 12. These multiplication times table worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplication Times Tables Sized Chart This multiplication times table charts is a great resource for teaching kids their multiplication times tables. The chart is sized based off the magnitude of the multiplied number. This multiplication chart is great for a visual representation of the multiplication times tables. This multiplication chart is appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplication Times Tables Practice Worksheets These multiplication times table practice worksheets may be used with four different times table ranges starting at 1 through 9 and going up to 1 through 12. The numbers in the Multiplication Times Table Worksheets may be selected to be displayed in order or randomly shuffled. The multiplication worksheets times tables may be fully displayed to use as a teaching example or completely hidden for the students to use as practice. These multiplication worksheets are great to test your students understanding of the multiplication times tables. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplication Times Tables Timed Drills Worksheets These multiplication times table worksheets are for testing the students knowledge of the times tables. A student should be able to work out the 20 problems correctly in 1 minute. You may select which multiplication times table to use. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Advanced Multiplication Times Tables Drills Worksheets These worksheets will generate multiple times tables drills as selected by the user. The user may select from 256 different multiplication problems from times tables ranging from 0 to 15. The user may also select a 1 minute drill of 20, 3 minute drills of 60 problems, or a custom drill with ranges from 20 to 100 problems and times of 1 to 5 minutes. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplication Times Tables Target Circles Worksheets These worksheets will generate nine times tables target circles drills as selected by the user. The user may select from times tables ranging from 1 to 15, and the range for the table to be between 0 and 12. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, and 3rd Grade. Single Digit Multiplication WorksheetsVertical Format These single digit multiplication worksheets are configured for a vertical problem format. The numbers for each factor may be individually varied to generate different sets of multiplication worksheets. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplication Worksheets For Problems in the Range of 0 to 12Vertical Format These multiplication worksheets are configured to produce problems in the range of 0 thru 12 in a vertical format. The numbers for each factor may be individually varied to generate different sets of Multiplication problems. If you select the number 5 in the one group and all of the numbers 0 through 12 in the other group, then you will produce a multiplication worksheet that generates problems for the 5 times tables. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiple Digits Multiplication WorksheetsVertical Format These multiplication worksheets may be configured for 2, 3, or 4 digit multiplicands being multiplied by 1, 2, or 3 digit multipliers. You may select between 12 and 25 multiplication problems to be displayed on the multiplication worksheets. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Single or Multiple Digit Multiplication WorksheetsHorizontal Format These multiplication worksheets may be configured for either single or multiple digit horizontal problems with 2 factors. You may select between 12 and 30 multiplication problems to be displayed on the multiplication worksheets. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. 1, 3, or 5 Minute Drill Multiplication WorksheetsNumber Range (0 - 12) A timed drill is a multiplication worksheet with all of the single digit multiplication problems on one page. A student should be able to work all of the problems on the multiplication worksheets correctly in the allowed time. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Advanced Multiplication Drills Worksheets Vertical FormatThis worksheet will generate advanced multiplication drills as selected by the user. The user may select from 256 different multiplication problems from multiplication tables ranging from 0 to 15. The user may also select a 1 minute drill of 20, a 3 minute drill of 60 problems, or a 5 minute drill of 100 problems, or a custom drill with ranges from 20 to 100 problems and times of 1 to 5 minutes. Missing Factor Multiplication WorksheetsHorizontal Format These multiplication worksheets are a good introduction for algebra concepts. You may select various types of characters to replace the missing factor for the multiplication worksheets. The formats of the problems are horizontal and the answers range from 0 to 99. You may vary the numbers of multiplication problems on the multiplication worksheets from 12 to 30. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Missing Factor Different Formats Multiplication WorksheetsHorizontal Format These multiplication worksheets are great for building missing factor problems. You may select different formats for the multiplication problems and the range of numbers to use. The formats of the problems are horizontal and you may select 12, 16, 20, 24 or 30 multiplication problems per worksheet. Decimal Number Multiplication WorksheetsVertical Format These multiplication worksheets may be configured for 1 or 2 Digits on the right of the decimal and up to 2 digits on the left of the decimal. You may vary the numbers of multiplication problems on the multiplication worksheets from 12 to 25. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Negative Number Multiplication WorksheetsHorizontal Format These multiplication worksheets may be configured for either single or multiple digit horizontal problems. The factors may be selected to be positive, negative or mixed numbers for these multiplication worksheets. You may vary the numbers of multiplication problems on the multiplication worksheets from 12 to 30. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiples of Ten Multiplication WorksheetsVertical Format These multiplication worksheets may be configured for 2, 3, or 4 digit multiplicands being multiplied by multiples of ten. You may vary the numbers of multiplication problems on the multiplication worksheets from 12 to 20. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplying with Powers of Ten Multiplication WorksheetsHorizontal Format These multiplication worksheets may be configured for 2, 3, or 4 digit multiplicands being multiplied by multiples of ten that you choose from a table. You may vary the numbers of problems on the worksheet from 15 to 27. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Multiplying Money WorksheetsVertical Format These multiplication worksheets may be configured for up to 3 digits on the left of the decimal. The currency symbol may be selected from Dollar, Pound, Euro, and Yen. You may vary the numbers of problems for each worksheet from 12, 16 or 20. These multiplication worksheets are appropriate for Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Learning Multiplication with Arrays Worksheets These multiplication worksheets use arrays to help teach multiplication and how to write out multiplication equations. The student will be given an array and asked to write out the numbers of rows and columns in the array, as well as a multiplication equation to describe the array. You may select the range of rows and columns used for the arrays. These multiplication worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Commutative Property of Multiplication with Arrays Worksheets These multiplication worksheets use arrays to help teach the commutative property of multiplication and how to write out multiplication equations. The student will be given an array and asked to write out a multiplication equation and then using the commutative property of multiplication, find an equivalent multiplication equation. You may select the range of rows and columns used for the arrays. These multiplication worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Advanced Multiplication Facts with Arrays Worksheets These multiplication worksheets use arrays to help teach how to write out multiplication and division equations. The student will be given an array and asked to write out multiplication and division equations to describe the array using the rows and columns as guidance. You may select the range of rows and columns used for the arrays. These multiplication worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Drawing and Determining Arrays Worksheets These multiplication worksheets help teach multiplication by learning how to draw and determine the size of arrays. The student will be given a description of an array and then asked to both draw the array and determine the number of units in the array. You may select the range of rows and columns used for the arrays, as well as the description given to draw the array. These multiplication worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Array Word Problems Worksheets These multiplication worksheets help teach multiplication by learning how to draw and determine the size of arrays based off a given word problem. The student will be given a word problem in which they must draw an array and write a multiplication equation to describe and solve the word problem. You may select the range of rows and columns used for the arrays. These multiplication worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade. Zero to 99 - 2 Factor Multiplication Worksheets These Multiplication worksheets will produce 2 factor problems in a vertical format where you may select numbers from zero to 99 to be used in the problems. The numbers for each factor may be individually varied to generate different sets of Multiplication problems. You may select up to 30 Multiplication problems per worksheet. These multiplication worksheets are appropriate for 3rd Grade, 4th Grade, and 5th Grade.
